

Zihong Luo

Incoming Master's Student in Computer Engineering
Carnegie Mellon University

Z.Luo21@student.liverpool.ac.uk

Profile

I am an incoming master's student in Computer Engineering at Carnegie Mellon University. My academic background is in computer science, machine learning, computer vision, and medical image analysis. My interests focus on applying artificial intelligence and data analysis methods to healthcare, education, visual understanding, and general-purpose software systems.

Education

Carnegie Mellon University <i>Master's Program in Computer Engineering</i>	<i>Pittsburgh, PA, USA</i> <i>Aug 2026 – Dec 2027</i>
University of Liverpool <i>BSc in Computing Science; GPA: 3.87/4.0; Major GPA: 3.93/4.0; Top 5 percent</i>	<i>Liverpool, UK</i> <i>Sep 2024 – Jun 2026</i>
Xi'an Jiaotong-Liverpool University <i>BSc in Information and Computing Science; GPA: 3.87/4.0; Major GPA: 3.93/4.0; Top 5 percent</i>	<i>Suzhou, China</i> <i>Sep 2022 – Jun 2026</i>

Academic and Research Experience

Final Year Project, University of Liverpool *Liverpool, UK Undergraduate Final Year Project; Supervisor: Dr. Anh Nguyen*
Oct 2025 – May 2026

- Completed a final-year undergraduate project on computer vision and machine learning for visual object understanding.
- Studied how image information can be used to identify object regions and interaction points in controlled academic examples.
- Implemented basic deep learning experiments in Python and evaluated results using standard academic metrics.
- Prepared project documentation and a final dissertation as part of the undergraduate degree requirement.

Jifu Medical, AI Algorithm Group *Shenzhen, China Algorithm Intern* *Jun 2025 – Aug 2025*

- Worked on general AI methods for medical and healthcare-related data analysis.
- Assisted in organizing experimental data and preparing basic machine learning workflows.
- Helped evaluate visual data processing methods for healthcare-related application scenarios.
- Prepared internal notes and documentation for research and development use.

Technical Skills

Programming: Python, Java, SQL

Machine Learning: PyTorch, OpenCV

Research Areas: Machine Learning, Computer Vision, Medical Image Analysis, Data Analysis **Tools:** Git, Linux, LaTeX, Jupyter

Career Plan

After completing my master's study at Carnegie Mellon University, I plan to apply my training in artificial intelligence, data analysis, and computer engineering to technology fields such as healthcare, education, and software development. In the long term, I hope to return to China and contribute to practical technology applications in industry.
